

Study in Cyprus

With over 300 days of sunshine a year and a summer stretching from May to October, Cyprus might be just the perfect place for abroad studies. Besides its beautiful looks, Cyprus is also becoming a centre of education in the region with the help of investments from large international organizations. English is widely spoken as the country is a former British colony and is the language of instruction in many of the higher education institutes in Cyprus, especially in the private sector.

Higher education in Cyprus is provided in both public and private institutions. The [Department of Higher and Tertiary Education](#) of the Ministry of Education and Culture of the Republic of Cyprus has taken big measures to increase funding, research and interest for higher education. Currently there are three state and four private universities in Cyprus. Detailed information about higher education in Cyprus can be found at the relevant website of the above mentioned Department.

The required information and documentation for the issue of visa and entry permit for a foreign student in order to study at an institution of tertiary education in Cyprus can be found at the website of the [Civil Registry and Migration Department](#) of the Ministry of Interior.

Please note that student holders of Canadian passports do not require a visa to enter Cyprus but they should obtain a study permit from the Migration Department through their University.

Please note that all applicants should submit all the requested documents to the Consulate General in Toronto for certification. Before they should be notarized by the Notary Public and authenticated by the Federal or Provincial Government (for any additional information please contact Ms. Lenia Charalambous at e-mail lenia@rogers.com).

STATE UNIVERSITIES

- [UNIVERSITY OF CYPRUS](#)
- [CYPRUS UNIVERSITY OF TECHNOLOGY](#)
